Grape Vines

Small Fruit Plants and Fruit and Ornamental Trees

Foster-Cooke Nursery Company

NURSERYMEN

Fredonia, New York

FOSTER - COOKE NURSERY COMPANY

GREETING

In presenting our catalogue to you we wish to say that in compiling same this year we have endeavored to list only the varieties of stock which we know have merits and are worthy of your selection.

We aim to keep up with the times and very carefully watch for new varieties and introductions which contain merit so that our customers are assured of the best at all times.

We wish to thank you very kindly for your past patronage and hope to have a continuance of same in the future, and to those who have never dealt with us we ask that we may be favored with a trial order. We will serve you right.

Respectfully yours,

FOSTER-COOKE NURSERY COMPANY.

SUITABLE DISTANCES FOR PLANTING

and Number required per acre.

Apples.	30x40 feet	36 trees per acre
Pears, Standard.	18x20 "	120 " " "
Peaches.	16x18 "	151 " " "
Cherries.	16x18 "	151 " " "
Plums.	16x20 "	136 " " "
Grapes.	6x 8 "	907 vines " "
Grapes.	8x 9 "	605 " " "
Currants.	3x 6 "	2420 " " "
Gooseberries.	4x 6 "	1815 " " "
Raspberries.	3x 6 "	2420 " " "
Blackberries.	3x 7 "	2075 " " "
Strawberries.	3x1½ "	9658 " " "
Strawberries.	3½x1½ "	8260 " " "

To ascertain the number of plants to the acre at any given distance, divide the number of square feet (43,560 in an acre) by the number of square feet you desire to devote to each plant.

GUARANTEE OF GENUINENESS.

Our vines and trees are warranted true to name and of grade represented, and we exercise the greatest care to have them so, but should any stock not prove true to name, we will either refund the purchase price for same, or replace stock with stock that is true to name, but we are not held liable for any sum greater than the amount originally paid for said stock.

SPECIAL.

Lucile—A red grape, ripening between Moore's Early and Worden, and therefore in season to pack with Diamond and Worden. An excellent trio of our national colors—red, white and blue. In quality not quite equal to Worden, but better than Moore's Early; about like the Diamond, which it also resembles in shape and compactness of cluster, but the cluster averages considerably larger.

The Lucile is a most vigorous grower and an enormous bearer, equal to the Niagara in this respect.

Has never been known to winter kill, and is probably as hardy as any variety in America. Has never been attacked by the downy mildew or any other disease, except slightly by the powdery mildew at a place and season when other varieties in its vicinity were badly infested. Is exceedingly productive, and will, one season with another, yield as many tons to the acre as either the Concord, Worden, or Niagara. Has often borne four large clusters on a single shoot. We recommend it for both Amateur and Market Culture, but particularly for the latter. The Lucile is a grand good grape for the extreme North, where early, extra hardy varieties are needed.

NOTICE.

Location—Three miles south of Dunkirk, forty miles west of Buffalo, on the L. S. & M. S. R. R., Erie R. R., N. Y. C. & St. L. (Nickel Plate) R. R., Pennsylvania R. R., D A. V. & P. R. R., electric cars to Dunkirk.

All Stock delivered F. O. B. Dunkirk or Fredonia, packed in the most thorough manner.

Cash with order or most satisfactory references from unknown correspondents.

If to be shipped C. O. D., one-fourth the amount of the bill required with order from unknown correspondents; return charges on money to be paid by the buyer.

We quote freight or express rates to any point on application.

Our responsibility ceases when goods are delivered to R. R. station and receipt taken thereof.

Once a customer always a customer with us. If you are not one, get in line.

GRAPE VINES=OUR SPECIALTIES

We grow them by the million for the wholesale trade. But to those who only want a few, send in your order; we will give it the same careful, prompt attention as though it was for 10,000. Anyone with a small yard can find a place for a few grape vines, which will produce an abundance of healthful fruit. Make the soil rich and mellow before setting out, plant the vines deep, 6 to 8 feet apart in the row; rows 8 to 10 feet apart.

(B) black; (R) red; (W) white. SEE PRICE LIST ENCLOSED.

Agawam (r)—Large berries, thick skin, soft, sweet and sprightly vigorous grower.

Brighton (r)—Berries medium, thin skin, quality good, very productive, one of the best red grapes.

Campbell's Early (b)—As to cluster and berry of large size with a beautiful bloom, pulp sweet and juicy, good shipper.

Catawba (r)—Excellent table and wine Grape, sweet rich flavor, requires a long season.

Champion (b)—Valuable for its earliness, rank grower, healthy and productive, fair quality.

Clinton (b)—Juicy and spicy, desirable for wine and preserving, rank grower and hardy.

Vergennes (r)—Flavor rich and delicious, early and a good keeper, berry large, meaty and tender, vine healthy and hardy.

Delaware (r)—A favorite dessert Grape of finest flavor. Must have good soil and careful handling to get best results.

Eaton (b)—Large and showy in cluster and berry, very juicy, hardy, healthy and productive.

Green Mountain (w)—The earliest of White Grapes, also one of the most valuable, combining hardiness, fruitfulness and excellent quality.

Concord (b)—The standard for productiveness and hardiness all over the country, very profitable.

The Stock offered in this catalogue is up to grade in every particular; warranted true to name or money refunded.

Lindley (r)—Sweet and high flavored—aromatic, a vigorous, healthy vine.

Lucile (r)—A vigorous grower and enormous bearer of fine fruit, ripens early and is said to be as hardy as any known variety.

McPike (b)—A seedling of the Wonder, berries very large, ripens uniformly, is hardy and a good shipper. New.

Martha (w)—Juicy, sweet and rich, hardy and productive.

Moore's Diamond (w)—Fine variety for both market and home garden, excellent quality, vigorous and productive.

Moore's Early (b)—Desirable variety for both market and home garden, excellent quality, hardy and productive.

Moyer (r)—Of Canadian origin in growth, hardiness, quality and size resembles Delaware, but ripens earlier, sweet and delicious.

Niagara (w)—Magnificent. An all around good grape, north or south, clusters and berries large, tough skin, good shipper, vigorous and productive.

Pocklington (w)—Bunch and berry large and showy, sweet and tender when fully ripe, thoroughly hardy.

Salem (r)—Very sweet and sprightly, a good keeper, vine vigorous and fruitful. Bunch large and compact.

Ives (b)—A strong grower and productive, very popular wine grape.

Hartford (b)—Early, quality medium, hardy and productive.

FOSTER - COOKE NURSERY COMPANY

Campbell's Early

Wilder (b)—A vigorous productive sort, flesh tender, sweet and sprightly, quality best, good keeper.

Worden (b)—Hardy and healthy in every way, a good producer and worthy

of a place in every garden or vineyard. Ripens a few days earlier than Concord.

Wyoming (r)—Very desirable for garden or vineyard, sweet, very aromatic, hardy and fairly productive.

When we say "first-class grade" we mean it. If you want "second-class," write for prices.

CURRANTS.

The growing of Currants and Gooseberries is the least troublesome and easiest for the fruit grower, also the most profitable. The fruit may be left on the bushes for ten days to two weeks after ripening without harm. They get ripe at a season when you are not busy with other fruit picking. Plant in well prepared soil in rows five feet apart and three feet in row.

RED VARIETIES.

Cherry, Fay's Prolific, Perfection, President Wilder, Red Cross, Versailles. White Grape Currants.

BLACK VARIETIES.

Black Champion and Lee's Prolific.

Cherry—Old and tried, very popular for market on account of its great size and deep red color.

Fay's Prolific—Red, as large as the Cherry, with longer clusters, much more productive and better quality.

Perfection—New red, a cross between Fay's Prolific and White Grape, but superior to both in size of bunch and berry, quality and productiveness.

President Wilder—Without a question the best red currant known, of good quality, mild sub-acid, a very strong, vigorous grower, holds its foliage well through the ripening season, very prolific, one of the money makers.

CARE OF STOCK—Do not let them lie around and dry out, but bury the roots in a cool, moist earth in a shady place.

Red Cross—A fine red currant of large size, long clusters and mild flavor, vigorous and productive.

La Versailles Red—Nearly as large as the Cherry, but much more productive and not quite so acid.

White Grape Currant—Large and mild, of excellent quality and productive, one of the best white currants.

Black Champion—The best black currant, large in bunch and berry, a very strong grower.

Lee's Prolific—Black, nearly as large as the Champion, of good quality and productive, a free grower.

Houghton Gooseberries

GOOSEBERRIES.

Downing White
Pearl White
Smith Improved (white)
Chautauqua Yellow
Red Jacket
Houghton Red
Industry Red

Downing—Large, whitish green and of good quality, a very strong upright grower, prolific and healthy.

Pearl—About the same as the Downing.

Smith's Imp.—Large, yellowish white, skin thin, good grower and best quality.

Chautauqua—A very vigorous, stout, upright grower, and very productive, very large light yellow, thick skin, but very sweet and fine flavor.

Red Jacket—A vigorous upright bush, healthy and productive, fruit is light red and about the size of the Downing.

Houghton—Pale red, berries medium in size and good quality, vigorous, healthy and productive.

Industry—Very large, dark red and of a rich pleasant flavor.

BLACKBERRIES.

The culture of the Blackberry is the same as that of the raspberry except it is a stronger grower and needs more room and large canes. Our plants have the same fibrous roots as our grape vines and superior to those usually handled by the trade.

Blowers, Eldorado, Erie, Snyder, Mesereau.

Blowers—Originated here in Chautauqua County, of good size and quality, jet black and a good shipper.

Eldorado—A good, healthy, hardy grower and very productive. Berries a jet black and of best quality, very reliable.

Erie—Very early, large, round, and of

excellent quality, vigorous and productive.

Snyder—The most hardy and productive of all. Berries of medium size, sweet and good, a sure bearer.

Mesereau—A hardy, upright, strong grower, a great bearer of large jet black berries that retain their color, sweet, rich and without core.

Cumberland Raspberry

RASPBERRIES.

There is nothing that a family enjoys more than fresh fruit, and a row of Raspberries, Blackberries, Grapes, Currants, Gooseberries and Strawberries across your garden will supply you with plenty of fresh fruit for the table in their season.

For garden culture plant Raspberries three feet apart in the row. After fruiting cut out all old wood.

Columbian Purple Gregg Black
Cuthbert Red Plum Farmer Black
Marlboro Red Kansas Black
Cumberland Black

Columbian Purple—A good strong grower and bearer of large firm berries, very prolific and best for canning. It propagates from the tip only.

Cuthbert Red—The most reliable red raspberry, fruit very large, fine quality, bush vigorous, hardy and prolific. Medium to late.

Cumberland Black—The largest of the black raspberries, berries firm and jet black, retaining their color, making them a good shipper, a strong grower and productive.

FREDONIA, NEW YORK

RASPBERRIES—Continued

Marlboro—Very large, bright red, ripening with the earliest, berries firm and fine quality, hardy, good grower and bearer.

Gregg—Late and large, bush a strong grower and productive, desirable for market and home use.

Kansas—Originated in Kansas, ripens early, black, firm, handsome and of best quality, very vigorous and productive.

Plum Farmer—New, of the largest size, wonderfully productive, ripening very early, all of crop within ten days, one of the best for the early market.

Glenn Mary

STRAWBERRIES.

For home use Strawberries may be planted in rows three feet apart and one foot in the row. For field culture plant the rows four feet apart, one foot in the row. Early spring is the best time for planting out Strawberries. We list only the best.

Jessie

Glenn Mary

Sample

Rough Rider

Wm. Belt

Senator Dunlap

The above varieties are the very best, all are large berries of good quality, strong, vigorous growers and bearers.

ASPARAGUS.

Conover's Colossal—Large, strong grower, fine quality.

Palmetto—Earlier, larger and more productive than Conover's Colossal.

Col. Mammoth White—Very large shoots, which are white, very vigorous, good quality.

Berr's Mammoth—Earliest of all, very fine.

RHUBARB OR PIE PLANT.

Very desirable because it is the first thing in spring to furnish material for pie and sauce. Plant on rich soil.

Myatt's Linnaeus is the best and largest.

If you do not intend to take care of what you plant, "better not plant."

APPLES.

Wealthy

SUMMER
Red Astrachan
Sweet Bough
Yellow Transparent
Golden Sweet

AUTUMN
Strawberry
Pumpkin Sweet
Maiden Blush
Duchess of Oldenburg

WINTER
Baldwin Twenty Ounce
Northern Spy Wealthy
R. I. Greening Grimes Golden
King

Baldwin—The old standby, large, red, good and productive.

Northern Spy—Large, striped red, quality of the best, a free grower and productive.

R. I. Greening—Large, green, sub-acid, rich and tender, very popular.

King of T. County—Very large, red, best quality, good grower and bearer.

Twenty Ounce—A very large striped apple, sub-acid, free grower and bearer.

Wealthy—Medium, dark red, sub-acid, a good grower, extra hardy, productive.

Grimes Golden—Large, golden yellow, best quality, very hardy, productive and vigorous.

Transcendant Crab—Very productive, red and yellow, handsome, strong grower and bearer; one of the best crab apples.

Red Astrachan—Large and handsome, crimson, a good grower and bearer.

Yellow Transparent—Medium, pale yellow, tender and juicy, a good early bearer.

Sweet Bough—Large, yellow, sweet, tender and juicy, good grower and productive.

Golden Sweet—Large, pale yellow, juicy and very sweet.

Autumn Strawberry—Medium, tender, juicy and very productive.

Pumpkin Sweet—Large, yellowish russet, very rich and sweet, fine for pickling.

Maiden Blush—Large, yellow with blush cheek, fine quality.

Duchess of Oldenburg—Large, striped, tender, sub-acid and juicy, a good grower and early bearer.

Our Stock is all Northern grown, acclimated and ready to grow. That's the kind to buy.

PEARS.

SUMMER.

Bartlett—Large, juicy, high flavored, very popular, great bearer. August.

Clapp's Favorite—Large, yellow and dull red cheek, melting, rich. August.

AUTUMN.

Flemish Beauty—Old and reliable, good quality, juicy and sweet. September.

Duchess—Very large, rich, juicy, most popular market variety. October.

Anjou—Buttery, melting, best late fall and early winter.

Keiffer—Remarkable keeping qualities, great bearer.

Sheldon—Large, yellow, first quality, hardy and productive. October.

Seckel—Small, yellowish brown, sweet, juicy, fine grained, best for pickling. October.

WINTER.

Lawrence—Yellow with brown dots, tender and melting, good bearer. Mid-winter.

QUINCES.

(3 to 4 feet.)

Orange—Large, golden yellow, very productive. October.

Rea's Mammoth — Largest grown, same form and color as orange. The very best. October.

CHERRIES.

The Cherry Tree requires a dry soil, is hardy, succeeding in the lightest soil or driest situation.

Cherries are very prolific and sure fruited, and those who have cherries to sell always find a ready and profitable market.

The Early Richmond heads the list for earliness and a cropper. It is a money maker.

The fruit bud of the Cherry is hardy and if the tree is consistently managed a full or partial crop may be had almost every year. In localities where canning establishments exist no better money making crop exists. Don't hesitate in setting a Cherry Orchard.

SOUR.

Early Richmond—Medium, dark red, melting, juicy, sprightly, rich, acid, best. June.

Montmorency Ordinare — Large, red, acid, productive. Last of June.

Dyehouse—A sure bearer, ripens a little before Early Richmond.

English Morello—Very dark red, large, sub-acid, rich and good. End of July.

May Duke—Large, dark red, rich, juicy and good quality, very reliable. June.

SWEET.

Black Tartarian—Very large, juicy, rich and productive.

Gov. Wood—Large, light red, juicy, delicious; tree healthy and productive. June.

We have a fine stock of Cherries. We did the work. We know them. Waranted true to name.

Napoleon—Large, pale yellow, juicy, rich and productive.

Windsor—Fruit large, liver colored, flesh remarkably firm, and of fine quality; tree hardy and prolific. July.

Yellow Spanish—One of the best of light colored varieties. June.

Schmidt Big—Very large, black, very juicy and of fine flavor, excellent shipper and very profitable; tree healthy, hardy and strong grower.

Lambert. Large, heart-shaped; reddish purple, turning to jet black when fully ripe; flesh firm, solid, rich with sprightly flavor. Late July.

Bing. A new black cherry originated in Oregon; very large; purplish black; flesh solid, highest quality; very hardy and productive; an excellent shipper.

PLUMS.

Lombard Plums

PLUMS—JAPAN.

Abundance
Burbank

Red June
Satsuma

EUROPEAN VARIETIES.

Bradshaw
Lumbard
Niagara
Imp. Gage

Yellow Egg
Red Egg
York State Prune
German Prune

Abundance—Large and early, bright red, hardy, robust grower, early bearer. August.

Burbank—Vigorous grower and abundant bearer, red, flesh deep yellow, sweet and fine flavor, one of the best. Late August.

Red June—One of the very best Japan plums, a good bearer, medium size, deep red and pleasant flavor. Early August.

Satsuma—Hardy, vigorous and productive, fruit large, purple, flesh firm, blood color, quality good. Late August.

York State Prune—Large, sweet and good, one of the best prunes, very prolific. September.

Do you expect Southern grown stock to stand our climate? All folly. Buy North grown stock.

Lombard—Medium in size, dull brick color, sweet and good, a great bearer. August.

Niagara—Very similar to the Bradshaw, but much more productive. August.

Imp. Gage—Large, green, juicy and rich flavor, productive. August.

Yellow Egg—Large, egg shaped, good and productive, fine for cooking.

Red Egg—Same as Yellow Egg only in color. August.

Bradshaw—Very large, purple, juicy and productive. August.

German Prune—Medium, very rich and sweet, productive. September.

PEACHES.

No fruit is more beautiful, more tempting, more enticing and healthful, or sells quicker, and brings a higher price than well grown Peaches.

This fruit is so delicious and so easily grown when the winters are not too severe that everyone should plant some trees every year. Some new varieties are proving to be more hardy and a judicious selection gives fruit from June 20 to November.

First Class. 4 to 5 feet.

Sneed—Very early, white flesh, productive. July.

Carman—A leader for general market and long distance shipments, yellow with deep blush, spicy and juicy. August.

Admiral Dewey—The earliest yellow peach, of good size and beautiful color, fine flavor, hardy and productive. August 1st.

Yellow St. John—Very much like Crawford Early, but two weeks earlier. August.

Champion—Large, delicious, productive, flesh white. August.

Mt. Rose—One of the best, white fleshed. August.

Early Rivers—White, with a delicate pink cheek, beautiful and delicious. August.

Niagara—A seedling of the Crawford, ripens a little later, said to be a very healthy sort.

All things come to him who waits, but a choicer collection may be acquired by going after them. Order now.

Remember, you can get 50 at 100 rates all through this catalogue. Where quoted single and 10's postage is included.

Early Crawford—Magnificent, yellow, good quality. September.

Crosby—Medium size, fine quality, abundant bearer, hardy. September.

Fitzgerald—Large, brilliant color, yellow fleshed, fine. September.

Clair's Choice—Yellow, with red cheek, firm. September.

Kalamazoo—Large yellow, fine quality, productive. September.

Elberta—Large yellow, with red cheek, flesh yellow, firm and of high quality, sure bearer, and hardy. September.

Late Crawford—Similar to Early Crawford, later.

Beer's Smock—Large yellow, annual bearer, one of the most desirable and profitable market sort. October.

Salway—Creamy, yellow, juicy, rich, sweet. October.

FOSTER - COOKE NURSERY COMPANY

Crimson Rambler in bloom

Showing Two Years' Growth—Finest Hardy Climbing Rose Yet Introduced.

ROSES.

Most everyone who is a lover of flowers prize the rose above all others, and to be successful in starting a bed of roses buy the best bushes you can get. Ours are large, strong, two-year-old bushes, ready to bloom. They cost us more money than the small inferior bushes sent out over the country every year. Therefore, we charge a little more. They make an abundant growth of new wood each year on rich soil. It is new wood that yields the blooms.

Alfred Colomb—Dark crimson, large, double and full.

Baron De Bonstetten—Dark crimson maroon.

Crimson Rambler—Well known climber.

Dinsmore—Large, deep crimson.

Earl of Dufferin—Rich crimson maroon with dark velvety shadings.

Prince C. De Rohan—Velvety, blackish crimson, handsome.

Mad Plantier—Pure white, hardy as a rock.

Margaret Dickson—White, of extra vigorous growth.

Coquette Des Blanches—White, of free growth and bloom.

Gen. Jacqueminot—Deep cherry red, a favorite.

Gen. Washington—Crimson red, opens wide and flat.

Paul Neyron—Bright red. The largest rose in cultivation.

Mrs. J. H. Lang—Delicate shade of pink, vigorous.

LaFrance—Silvery rose, beautiful in bud.

Magna Charta—Bright rose, very showy and large.

Mrs. Crawford—Warm delicate shade of pink, free bloomer.

American Beauty—One of largest, rich rosy crimson.

Persian Yellow—The finest hardy yellow rose grown.

Dorothy Perkins—This is a splendid new shell-pink climbing rose. This is of the same strong habit of growth as Crimson Rambler and the flowers are borne in clusters of 20. The flowers are large, very double, sweetly scented and of beautiful shell-pink color, very hardy and especially adapted for planting as a companion rose to Crimson Rambler. You will be pleased with it.

Baby Rambler—The ever-blooming Dwarf Crimson Rambler. It blooms every day in the year in the house. Out of doors from May until November. The plants are very vigorous, grow to a height of about 18 to 24 inches. The foliage is dark, glossy, profuse and remarkably free from insects and fungus. The flowers are borne in clusters. They are like those of the Climbing Crimson Rambler and are produced perpetually.

ORNAMENTALS.

Try us, see what a \$5.00 order will do; you will be astonished. If you can't stand \$5.00, try \$1.00. DECIDUOUS TREES.

Maple

Catalpa Bungei—A curious dwarf tree with globular head. Very effective for lawn or terrace decorations. Quite hardy. In stock 6 to 8 feet.

Maple, Silver Leaf—A reliable grower and matures very rapidly. Leaves are deeply cut; their silvery under-surface is beautifully displayed. In stock 8 to 10 feet.

Maple, Weir's Cut Leaf—The leaves are cut more deeply than those of its parent, the Silver Maple; it also grows more rapidly. A desirable quick growing lawn tree. In stock 8 to 10 feet.

Poplar, Carolina — Withstands well conditions under which many trees die. A sure and rapid grower. In stock 8 to 12 feet.

Tulip Tree—A grand native tree of rapid growth, that does well in most soils. The foliage is dark green, glossy and dense. Flowers freely in June. In stock 5 to 6 feet.

Thorn, Double White—A small tree with spreading, spiny branches; very hardy and will thrive in any dry soil; has small double white flowers; a very ornamental tree. In stock 3 to 4 feet.

Thorn, Paul's Double Scarlet—Flowers a bright carmine red; superior to any of its color. In stock 3 to 4 feet.

WEEPING DECIDUOUS TREES.

Weeping Cut-Leaf White Birch—Has a silvery white bark. The foliage is deeply and delicately cut. In stock 5 to 7 feet.

Teas Weeping Mulberry — The pendulous branches sweep the ground in shining lengths. One of the best weeping trees in cultivation.

Kilmarnock Willows—A curious umbrella shaped form, with silvery gray leaves.

Spirea Van Houttei in Bloom. A very graceful shrub at all times, also called Bridal Wreath. Never fails to bloom. Very popular. See description Page 14.

ORNAMENTALS—Continued. DECIDUOUS SHRUBS.

Althea (Rose of Sharon)—One of the best deciduous flowering hedge plants, forming a thick, stout bush. All varieties, 2 to 3 feet.

Honeysuckle—They are hardy and grow easily. Have fragrant flowers in spring, followed by brilliant fruit in summer and fall. In stock all varieties.

Japanese Snowballs—Similar in habit to the above. When a single specimen is wanted there is nothing better.

Spirea—Indispensable shrubs of easy culture that differ so in size, character and time of bloom that there are varieties suited for almost every purpose. All varieties in stock.

Peonies, the Most Showy and Easily Grown Border Plant Yet Introduced.

Purple Fringe—A familiar shrub. Has light, airy or mist-like covering. In stock 3 to 4 feet.

Hydrangea—Very popular, easy grown and are very hardy; bloom from July to September. In stock, bush form 2 to 3 feet, tree form 3 to 4 feet.

Lilac, White and Purple—The most common and indispensable of shrubs. Very hardy and flowers abundantly.

Privet, California—A very hardy privet hedge and a vigorous grower.

Japan Quince—Very hardy, is well adapted to a great range of soils.

Snowballs—Very hardy, grows quickly and are invaluable in shrubbery borders.

Deutzia Crenata—A vigorous grower with double white flowers borne in panicles. In stock 3 to 4 feet.

Paeonies—The old time favorites. They grow best in rich deep soils and sunny positions. They flower showingly at the close of May and in June. All varieties in stock.

Clematis paniculata—It is a strong, luxuriant grower, with large green foliage that is handsome in itself. It is covered with fragrant white flowers at the close of August. In stock 2 years.

Clematis Henryi—Has large creamy white flowers. In stock 2 years.

Clematis Jackmani—Has rich royal purple flowers three inches across; borne abundantly in June. In stock 2 years.

Clematis Ramona—Very large deep sky-blue flowers. In stock 2 years.

Weigelas—All varieties. They thrive in any soil, are strong growers and usually hardy.
